Safety on the project

OWNER BUILD ADVISOR

"Your ON-SITE partner"

We are committed to assisting Owner Builders through any new build, renovation or extension throughout Sydney. We understand that you may not have the construction experience required to deliver your project and that is why we are here.

We provide;

- **Weekly/Bi-Weekly on-site inspections**
- **Daily requests for information when required (RFI Information)**
- **Most importantly, a competitive quote for the duration of the works and our service**

We don't send booklets of information, our service model is based on face-to-face consulting to ensure the project remains within your budget and within your time frame whilst achieving contractual, quality and safety requirements.

A little about us...

Two motivated individuals with extensive construction knowledge in both Project and Site Management.

Matthew (Bachelor of Engineering) has over 10 years of Project Management experience and will assist with the following;

- **Programming the project and ensuring deadlines are achieved**
- **Design related queries**
- **Ensuring general procedures are being followed**

James (Construction Management Supervisor) has over 10 years of Site Management experience and will assist with the following;

- **Ensuring the site is managed correctly**
- **Monitoring safety on the project**
- **Quality management**
- **Subcontractor performance**

What you need to do next?

- **Visit our Website for more information; www.ownerbuildadvisor.com.au**
- **Contact us at Info@ownerbuildadvisor.com.au**
- **OBA will provide a quotation based on your level of expectations and experience**
