OWNER BUILDER PRICE GUIDE

Thank you for considering Co-Pilot Finance & Insurance for your upcoming project.

Below is an indicative guide on total insurance costs for your project. This does not confirm cover or bind us or an insurer to accept the cover for the project.

When you are closer to your construction start date, please submit the relevant questionnaire to enable us to obtain firm costs. We suggest approximately 2-3 weeks prior to your commencement date, insurer quotes are only valid for 30 days.

Project Value Range	Total Payable Range
< \$100k	\$1600 - \$2000
\$100k - \$250k	\$2000 - \$2800
\$250k - \$400k	\$2800 - \$3500
\$400k - \$600k	\$3500 - \$5800
\$600k - \$1m	\$5800 - \$6400

Pricing is based on the following assumptions:

- Liability limit - \$10,000,000
- Labour costs at 20% of total project costs
- Cover for existing structures is excluded
- Nil claims

Should your needs fall outside those assumptions please let us know. We look forward to being of service to you and your insurance needs.
